EDUCATION

Tsinghua University

September 2022 - Present

Xinya College & Department of Computer Science and Technology

GPA: 3.6/4.0

Selected A+ courses: Introduction to Complex Analysis, Media Computing, Database Special Topic Training

Selected A/A- courses: Linear Algebra, Software Engineering, Introduction to Artificial Intelligence, Introduction to Machine Learning, Fundamentals of Computer Graphics, Network Security Engineering and Practice

PROFESSIONAL / RESEARCH EXPERIENCE

Client Development Engineer Intern, Tencent (Project MAX)

May 2026 – Aug 2026

- Optimized NavMesh pathfinding to improve agent movement smoothness, resolving instability on terrain bumps and convex corner edges.
- Implemented NPC auto-navigation using custom FixNavMesh algorithms; developed a GM debug panel and battle control panel UI for the 2V2 mode.

Research Intern, Information Retrieval Lab

Oct 2024 – Present

Dept. of Computer Science, Tsinghua University

- Improved recommendation models (FM, DeepFM, AFM) by incorporating SAE plugins to enhance interpretability, controllability, and transparency.

Research Intern, Multimedia & Network Big Data Lab

Jul 2023 – Jul 2024

Tsinghua University

- Conducted research on diffusion models and personalized image generation; co-authored a paper submitted to AAAI 2025.

Research Intern, Pervasive HCI Lab

Jan 2025 – Apr 2025

Tsinghua University

- Researched aligning human and AI thought processes; built a human-AI collaborative writing assistant; co-authored a paper submitted to UIST 2025.

LEADERSHIP, COMMUNITY & VOLUNTEERING

Secretary, Intelligent Agent Department

Feb 2023 – Present

Student Science and Technology Association, Tsinghua University

- Organized the annual Intelligent Agent Competition; led development of the competition game "Generals" used by 100+ participants.

Volunteer Tutor, Q&A Workshop

Sep 2025 – Present

Center for Student Learning and Development, Tsinghua University

- Provide one-on-one tutoring in C/C++, data structures, and algorithms to undergraduate students.

Tutor, Science and Engineering Summer Camp

Jul 2024 – Aug 2024

Tsinghua University

- Led engineering projects (robot design, bridge construction) for 30+ high school students.

- Served on Tsinghua's Tianjin recruitment team and as Publicity Department Executive at Xinya College.

PUBLICATIONS

"Curriculum Multi-Reward Reinforcement Learning for Customized Text-to-Image Generation"

*Y. Zhou, X. Wang, H. Chen, Y. Zhang, **Q. Zhou**, W. Zhu* — Submitted to AAAI 2025

"Towards Mutually Illuminative Collaborative Human-AI Deliberate Discussion"

*Z. Zhang, S. Wu, R. Ran, **Q. Zhou**, R. Ma, J. Leng, J. Zeng, C. Yu* — Submitted to UIST 2025

SKILLS & SELECTED PROJECTS

Languages Chinese (Native), English (Fluent), Spanish (Basic)

Programming C/C++, Python, JavaScript/TypeScript, Java, Rust, System Verilog

Tools OpenGL, GLSL, Unity, PyTorch, Git, Linux, Docker, LaTeX, Vivado

Path Tracing Renderer (C++) — Physically-based renderer with Whitted & Monte Carlo ray tracing, PBR materials, BVH acceleration, NEE+MIS, and OpenMP parallelization.

OpenGL Rendering Engine (C++/GLSL) — Modular real-time engine with shader management, dynamic lighting, skybox, shadow mapping, and water reflection/refraction.
